12/2020 - Present

Sells new and used products via online platform of Shopee Philippines.

Innovatronix, Inc.

Senior Software Engineer, Antipolo, Calabarzon

06/2006 - 11/2020

- My stack includes VB .NET, SQL Server, T-SQL, PHP, MySQL, AWS, Database, ASP .NET, Project Management.
- I have done customized Ti-To System (Time-In Time-Out) for a client with a **very secured and cost-effective feature** using just a webcam to capture employee images.
- Built in-house **ERP System from scratch** with help of the team involving stakeholders.
- Discuss with stakeholders on what reports and procedures need to be automated.
- Designed and built new business applications, including CRM, ERP, and supply chain software.
- Developed custom software solutions for [5] customers.
- Maintained software products including programs, webpages, and databases.
- Wrote manual and documents in using the system.

Millennium Computer Tech. Corp.

Computer Programmer, Quezon City, Metro Manila

05/2005 - 06/2006

- Wrote, modified, integrated, analyzed, tested software codes using Visual Basic SQL Server 2000, Crystal Report v9.0, and Microsoft Access for work-around programs and reports outside of the system.
 - Created reports, manuals and other documentation on the status, operation, and maintenance of software. Provided training and education on how to use the system.
-
