

## telecommunication engineering Student

An enthusiastic young engineer, autonomous and able to use his technical skills for the good of the organization. Able to master new technologies.

## EDUCATION

### Telecommunications and software engineering national engineering school of Tunis /ENIT

Tunis

Courses

- Operating systems.
- Computer Programming and Coding
- Object-Oriented Design.
- Signal processing .
- Data Structures and Algorithms.
- Telecommunications and networking systems.
- database

### preparatory institute in Mathematics and physics preparatory institute for engineering studies of Monastir

09/2018 - 09/2020

Monastir,tunis

Courses

- Python
- Mathematics.
- Oriented Object Programming
- Physics.

## WORK EXPERIENCE

### Java Developer Internship Tunisie Telecom

06/2022 - 08/2022

Achievements/Tasks

- Creating of a Java-based application for order office management.
- Helping to design methods to implement strategic ideas.
- Assist with daily tasks within the team.

## SKILLS

Software Development

Database concepts

Debugging Problem-solving

Teamwork Adaptability

C/C++/JAVA/PYTHON3

Javascript

React

MySQL

CSS

HTML
