

Full Stack Web Developer

## SUMMARY

Innovative Full stack web developer with proven experience developing successful frontend and backend web applications. Motivated for creating scalable and reliable code to create consistent and elegant user experiences for a tech company.

## WORK EXPERIENCE

### Full Stack Web Developer at Serviz | Delhi

Oct 2022 — Present

Fully involved from the kick-off phase with Product Management and UI/UX, all the way to production deployment.

New and further development of software based on React.

### Full Stack Web Developer at 100Devs

Jun 2022 — Oct 2022

- Built full stack web applications using Node.js, Express, MongoDB.
- Collaborated with a team of developers to build modern & responsive web applications using best practices
- Applied agile methodologies like SCRUM for project management

### Recent Projects:

**Galaxy Explorer** – Explore the wonders of Galaxy with this cool app made using HTML-CSS-JS and Nasa API.

**Poison Picker**– Users can just enter the name of the drink they would like to prepare. They will get the drink and instructions on how to make it.

**Weather Radar**– An app to check weather all over the world. Trying to avoid walking straight into a rainstorm whenever you are going out? Check out my weather radar before you leave so you never have to get drenched.

**100 Hours Project** – Flight Tracker (work in progress)

**Other Projects:** Lift with Gym Heros, Inspire Me BOT, Life of a dev

### Assistant Manager at Indigo Airlines, Delhi

Sep 2015 — Jun 2022

Worked on Airbus Flight Ops Docs Manager Software using XML to implement cockpit documentation for the fleet of 250+ aircraft. Conversion of cockpit manuals and checklists in electronic format helped the airline cut costs and human resources required in updation of the docs.

Additionally, helped pilots have a quicker reference to critical aircraft technical docs which saved precious time for airline operations.

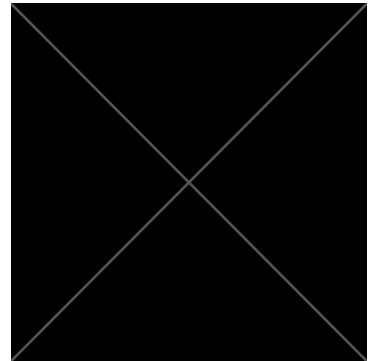

## VOLUNTEERING

### Lights Back On Inc | Georgia, USA

Sep 2022 — Present

Helped community action nonprofit organization set up their WIX website.
